

Access and Opportunities

Idaho STEM
Action Center
Working Group

Q12 - Does your community have the following facilities, programs, policies or practices that can impact STEM learning?

Q14 - Thinking about things that may have a significant impact to STEM learning for your students, Please rate your perception of the following obstacles' impact on your students' access to STEM learning.

Goal—Advocate statewide for equitable access and opportunities in STEM for all Idahoans.

Objectives

- Adopt a **broad definition** of inclusiveness and show the benefits of this approach.
- Develop **communication strategy** for statewide advocacy.
- Explore **key questions** and results from the Persona Mapping survey through focus groups, interview.
- Gain **deeper understanding** of strengths, challenges, and barriers in order to identify actionable next steps for increasing access.
